

# ASSESSING GENERAL REASONING

**THE ADULT COGNITIVE TEST GENERAL REASONING (ACT-GR)** is a non-verbal cognitive test that assesses an individual's abstract reasoning, learning ability, as well as ability to analyse and solve problems.

## HOW ACT-GR HELPS YOU

- Provides a measure of an individual's cognitive and learning ability.
- Assesses an individual's ability to analyse and solve complex problems.
- Helps you select individuals with advanced observation and clear thinking skills.

## HOW ACT-GR WORKS

The ACT-GR presents candidates with a series of diagrammatic puzzles. These puzzles evaluate candidates' inductive reasoning, spatial reasoning, pattern recognition and ability to solve abstract problems.

## WHY CHOOSE ACT-GR

- Carefully designed in consultation with professional psychologists.
- Simplifies complex psychological concepts and makes them easy to understand.
- Proprietary online assessment platform makes administration quick and easy.
- Designed to be more challenging than similar tests of general reasoning.
