

ASSESSING NUMERICAL COGNITIVE ABILITY

THE ADULT COGNITIVE TEST NUMERICAL REASONING (ACT-NR) is a cognitive test designed to find out how well candidates are able to analyse and solve numerical problems.

HOW ACT-NR HELPS YOU

- Provides a measure of an individual's numerical reasoning ability.
- Assesses an individual's ability to make logical deductions, analysis, and interpretations in solving numerical problems.
- Helps you select individuals who excel at tasks requiring numerical problem solving, inductive reasoning and pattern recognition.

HOW ACT-NR WORKS

The ACT-NR measures candidates on estimation of quantities, sufficiency of information and a series of mathematical puzzles that requires out-of-the-box thinking.

WHY CHOOSE ACT-NR

- Carefully designed in consultation with professional psychologists.
- Simplifies complex psychological concepts and makes them easy to understand.
- Proprietary online assessment platform makes administration quick and easy.
- Designed to be more challenging than similar tests of numerical reasoning.
