

# ASSESSING VERBAL COGNITIVE ABILITY

**THE ADULT COGNITIVE TEST VERBAL REASONING (ACT-VR)**  
is a cognitive test designed to assess the ability of an individual to analyse and solve problems through the use of logic and reading comprehension.

## HOW ACT-VR HELPS YOU

- Provides a measure of an individual's verbal reasoning ability.
- Assesses an individual's creativity, practicality, and decision making skills.
- Helps you select individuals who excel at tasks requiring good language comprehension and logical thinking skills.

## HOW ACT-VR WORKS

The ACT-VR presents candidates with a series of passages and associated statements, asking them questions regarding how each statement relates to its relevant passage.

## WHY CHOOSE ACT-VR

- Carefully designed in consultation with professional psychologists.
- Simplifies complex psychological concepts and makes them easy to understand.
- Proprietary online assessment platform makes administration quick and easy.
- Designed to be more challenging than similar tests of verbal reasoning.
